PROFESSIONAL SUMMARY

Web Development Team Lead with 9+ years of experience specializing in Angular (v2–16) and JavaScript, driving the design and delivery of scalable, high-performance web applications and SaaS products. Proven expertise in RESTful API integration, modular architecture, and cross-functional team leadership. Adept at mentoring developers, optimizing front-end performance, and implementing best practices in Agile environments. Hands-on experience with Copilot-assisted development to enhance productivity and code quality.

TECHNICAL SKILLS

- **Frontend:** Angular (2–20), Angular Material, JavaScript, HTML5, CSS3, Bootstrap, RxJS, Kendo UI
- **Tools & Platforms:** Git, Postman, Visual Studio Code, Notepad++, Sublime
- **Methodologies & APIs:** Agile, Responsive Design, RESTful APIs, Microservices
- **AI Tools & OS:** GitHub Copilot, Windows

PROFESSIONAL EXPERIENCE

Technology Lead

Infosys, Hyderabad | Jun 2026 – Present
Client: Bank of America

- Developed robust single-page applications (SPAs) using Angular 20 and Angular Material to ensure seamless user experiences.
- Spearheaded the architecture and implementation of reusable UI components and optimized state management.
- Integrated complex RESTful APIs and ensured secure data flow across application modules.
- Conducted weekly client engagements and status meetings to present work progress, track deliverables, and align with business requirements.
- Led code reviews, enforced front-end coding standards, and mentored team members on modern Angular best practices.
- Collaborated with cross-functional teams including QA, UI/UX designers, and product owners in an Agile environment.

Senior Software Engineer

Wipro, Hyderabad | Jul 2022 – Mar 2026

Client: Cisco

- Led a team of 8 developers in migrating an internal router management tool from AngularJS to Angular 14, improving scalability and modernizing the application architecture.
- Successfully upgraded the application from Angular 14 to Angular 16, enhancing performance, maintainability, and compatibility with the latest framework features.
- Designed modular architecture and enforced coding standards, best practices, and code reviews.
- Coordinated with cross-functional teams (QA, Product Owners) to align deliverables with business goals.
- Mentored junior developers and facilitated knowledge-sharing sessions on Angular best practices.
- Oversaw end-to-end delivery lifecycle, including sprint planning, backlog grooming, and client demos.
- Improved application performance by 25% through optimization of reusable components and API integrations.
- Leveraged Copilot AI for code analysis, refactoring, and unit test coverage improvement.

Client: Hewlett-Packard

- Developed real-time device monitoring dashboards and secure software update flows.
- Participated in UI/UX design and Agile ceremonies.

Client: Bank of America

- Built an application for employee onboarding and seat allocation as per business requirements.

Associate – Angular Developer

Cognizant, Hyderabad | Dec 2019 – Jun 2022

Project: AssetSERV – Digital Asset Management Platform

- Designed Angular components using Material Design; participated in estimations and code discussions.

Project: Chrome Web Store (Google)

- Debugged Chrome extensions and handled developer communication for compliance and policy violations.
- Collaborated with Google's internal support and QA teams.

Software Engineer

Coign Consultants Pvt Ltd, Hyderabad | Aug 2018 – Nov 2019

- Developed mentor and student modules for a SaaS product using Angular 4–7 and .NET backend.
- Integrated Zoom and payment gateways; mentored interns and conducted weekly deployments.

Software Developer

SellerGyan, Hyderabad | Jul 2017 – Jul 2018

- Developed internal tools (Viral Piasa, Feedback Gearer, CatalogueURL) using Angular 2–4 and Node.js.
- Implemented social media integrations and developed REST APIs with ExpressJS.
- Led UI/UX efforts using Angular Material and ensured cross-browser compatibility.

ROLES AND RESPONSIBILITIES

- Architecture & Development: Complex Angular UI development, Proof of Concepts (POCs), TypeScript expertise, modular component design, and responsive web design.
- API & Backend Integration: REST APIs, Microservices integration, and secure data handling.
- Quality & Performance: Unit testing, code quality enforcement, cross-browser compatibility, and performance optimization.
- Leadership & Process: Technical leadership, sprint planning, issue resolution, distributed/global team collaboration, sprint demos, and stakeholder presentations.
- Tools & Workflow: Agile/JIRA, Git/Bitbucket, CI/CD, and Copilot AI integration.

EDUCATION

Degree / Certificate	Institution	Board / University	Year	Score
B.Tech (ECE)	Centurion University	Centurion University	2016	78.8%
Higher Secondary (HSC)	Sri Chaitanya Junior College	Intermediate Board	2012	70.9%
SSC	St. Ann’s Convent School	Board of Secondary Ed.	2010	63.0%

SOFT SKILLS

- Quick learner with strong adaptability

- Excellent communication and interpersonal skills
- Leadership and mentoring abilities
- Analytical and problem-solving mindset

DECLARATION

I hereby declare that the information provided above is true to the best of my knowledge and belief.
